MOCK TEST PAPER - 2

FINAL (NEW) COURSE: GROUP – I

PAPER – 1: FINANCIAL REPORTING

ANSWERS

1. (a) Monetary items are units of currency held and assets and liabilities to be received or paid in a fixed or determinable number of units of currency. Para 15 of Ind AS 21 states that the essential feature of a monetary item is a right to receive (or an obligation to deliver) a fixed or determinable number of units of currency. Similarly, a contract to receive (or deliver) a variable number of the entity's own equity instruments or a variable amount of assets in which the fair value to be received (or delivered) equals a fixed or determinable number of units of currency is a monetary item.

Conversely, the essential feature of a non-monetary item is the absence of a right to receive (or an obligation to deliver) a fixed or determinable number of units of currency.

On the basis of above principles, the line items of trial balance should be bifurcated as follows:

Particulars	Monetary item / Non-monetary item
Share Capital	Non-monetary item
Securities Premium reserve on issue of equity shares	Non-monetary item
Retained earnings	Non-monetary item
Long-term borrowings	Monetary item
Deferred tax liability	Non-monetary item
Income tax payable	Monetary item
Import duty payable	Monetary item
Employee benefits payable	Monetary item
Sundry trade payables	Monetary item
Property, plant and equipment (net of depreciation)	Non-monetary item
Computer software (net of amortization)	Non-monetary item
Inventories purchased (there is no indicator of impairment)	Non-monetary item
Cash and bank balance	Monetary item
Sundry trade receivables	Monetary item
Allowance for doubtful trade receivables	Monetary item

As per para 38 of Ind AS 21, an entity may present its financial statements in any currency (or currencies). If the presentation currency differs from the entity's functional currency, it translates its results and financial position into the presentation currency. For example, when a group contains individual entities with different functional currencies, the results and financial position of each entity are expressed in a common currency so that consolidated financial statements may be presented.

(b) Translation of the balances for the purpose of consolidation

(b) As illustrated in per para 32 of Ind AS 8, Change in method of depreciation is a change in accounting estimates.

Considerations in determining whether the change in depreciation methodology is appropriate:

Paragraphs 60 and 61 of Ind AS 16, Property, Plant and Equipment, state that the depreciation method used shall reflect the pattern in which the asset's future economic benefits are expected to be consumed by the entity.

The depreciation method applied to an asset shall be reviewed at least at each financial year-end and, if there has been a significant change in the expected pattern of consumption of the future economic benefits embodied in the asset, the method shall be changed to reflect the changed pattern.

Accounting procedure:

Such a change is accounted for as a change in an accounting estimate in accordance with Ind AS 8.

Depreciation is a function of several factors, with extent of usage and efflux of time being its primary determinants. The hours-in-use method relates the amount of periodic depreciation charge only to one of the above two factors, namely, the extent of usage as reflected by the number of hours. This method may therefore be said to be appropriate as per para 62 of Ind AS 16.

Determination of depreciation method involves an accounting estimate; depreciation method is not a matter of an accounting policy. Accordingly, as per Ind AS 8 and Ind AS 16, a change in depreciation method shall be accounted for as a change in accounting estimate, i.e; prospectively.

However, given the possibility that the asset will be depreciated over a period longer than it would be under SLM basis, the company will need to assess if there are any impairment triggers and carry out impairment testing as required under Ind AS 36.

2. (a) Computation of the cost of the factory

Description	Included in P.P.E. ₹ '000	Explanation
Purchase of land	10,000	Both the purchase of the land and the associated legal costs are direct costs of constructing the factory.
Preparation and levelling	300	A direct cost of constructing the factory
Materials	6,080	A direct cost of constructing the factory
Employment costs of construction workers	1,400	A direct cost of constructing the factory for a seven-month period
Direct overhead costs	700	A direct cost of constructing the factory for a seven-month period
Allocated overhead costs	Nil	Not a direct cost of construction
Income from use as a car park	Nil	Not essential to the construction so recognised directly in profit or loss
Relocation costs	Nil	Not a direct cost of construction
Opening ceremony	Nil	Not a direct cost of construction
Finance costs	612.50	Capitalise the interest cost incurred in a seven-month period (purchase of land would not trigger off capitalisation since land is not a qualifying asset. Infact, the construction started from 1st May, 20X1)
Investment income on temporary investment of the loan proceeds	(100)	offset against the amount capitalised
Demolition cost recognised		Where an obligation must recognise as

as a provision	920	part of the initial cost
Total	19,912.50	

Computation of accumulated depreciation		
Total depreciable amount	9,912.50	All of the net finance cost of 512.50 (612.50 – 100) has been allocated to the depreciable amount.
Depreciation must be in two parts: Depreciation of roof component Depreciation of remainder	49.56 57.82	9,912.50 x 30% x 1/20 x 4/12 9,912.50 x 70% x 1/40 x 4/12
Total depreciation	107.38	
Computation of carrying amount	19,805.12	19,912.50 – 107.38

(b) (i) Assessment of manufacturing unit whether to be classified as held for sale

The manufacturing unit can be classified as held for sale due to the following reasons:

(a) The disposal group is available for immediate sale and in its present condition. The regulatory approval is customary and it is expected to be received in one year. The date at which the disposal group is classified as held for sale will be 31st July, 20X2, i.e. the date at which management becomes committed to the plan.

(b) The sale is highly probable as the appropriate level of management i.e., board of directors in this case have approved the plan.

(c) A firm purchase agreement has been entered with the buyer.

(d) The sale is expected to be complete by 31st March, 20X3, i.e., within one year from the date of classification.

(ii) Measurement of the manufacturing unit as on the date of classification as held for sale

Following steps need to be followed:

Step 1: Immediately before the initial classification of the asset (or disposal group) as held for sale, the carrying amounts of the asset (or all the assets and liabilities in the group) shall be measured in accordance with applicable Ind AS.

This has been done and the carrying value of the disposal group as on 31st July, 20X2 is determined at ₹ 5,200 lakh. The difference between the carrying value as on 31st December, 20X1 and 31st July, 20X2 is accounted for as per Ind AS 36.

Step 2: An entity shall measure a non-current asset (or disposal group) classified as held for sale at the lower of its carrying amount and fair value less costs to sell.

The fair value less cost to sell of the disposal group as on 31st July, 20X2 is ₹ 3,500 lakh (i.e. ₹ 3,700 lakh - ₹ 200 lakh). This is lower than the carrying value of ₹ 5,200 lakh. Thus, an impairment loss needs to be recognised and allocated first towards goodwill and thereafter pro-rata between assets of the disposal group which are within the scope of Ind AS 105 based on their carrying value.

Thus, the assets will be measured as under: (₹ in lakh)

Particulars	Carrying value – 31st July, 20X2	Impairment	Carrying value as per Ind AS 105 – 31st July, 20X2
Goodwill	1,000	(1,000) (Refer WN)	-
Plant and Machinery	1,800	(229) (Refer WN)	1,571
Building	3,700	(471)	3,229
Debtors	2,100	-	2,100
Inventory	800	-	800
Creditors	(500)	-	(500)
Loans	(3,700)	-	(3,700)
	5,200	(1,700)	3,500

Working Note:

Allocation of impairment loss to Plant and Machinery and Building

After adjustment of impairment loss of ₹ 1,000 lakh from the full value of goodwill, the balance ₹ 700 lakh (₹ 1,700 lakh – ₹ 1,000 lakh) is allocated to plant and machinery and Building on proportionate basis.

Plant and machinery – ₹ 700 lakh x ₹ 1,800 lakh / ₹ 5,500 lakh = ₹ 229 lakh (rounded off)

Building – ₹ 700 lakh x ₹ 3,700 lakh / ₹ 5,500 lakh = ₹ 471 lakh (rounded off)

(iii) Measurement of the manufacturing unit as on the date of classification as at the year end

The measurement as at the year-end shall be on similar lines as done above.

The assets and liabilities in the disposal group not within the scope of this Standard are measured as per the respective standards.

The fair value less cost to sell of the disposal group as a whole is calculated. This fair value less cost to sell as at the year-end shall be compared with the carrying value as at the date of classification as held for sale. It is provided that the fair value as on the year end is less than the carrying amount as on that date – thus the impairment loss shall be allocated in the same way between the assets of the disposal group falling within the scope of this standard as shown above.

Measurement of the manufacturing unit as on the date of classification as at the year-end shall be on similar lines as done above.

3. (a) If Ind AS is applicable to any company, then Ind AS shall automatically be made applicable to all the subsidiaries, holding companies, associated companies, and joint ventures of that company, irrespective of individual qualification of set of standards on such companies.

In the given case it has been mentioned that the financials of Iktara Ltd. are prepared as per Ind AS. Accordingly, the results of its subsidiary Softbharti Pvt. Ltd. should also have been prepared as per Ind AS. However, the financials of Softbharti Pvt. Ltd. have been presented as per accounting standards (AS).

Hence, it is necessary to revise the financial statements of Softbharti Pvt. Ltd. as per Ind AS after the incorporation of necessary adjustments mentioned in the question.

The revised financial statements of Softbharti Pvt. Ltd. as per Ind AS and Division II to Schedule III of the Companies Act, 2013 are as follows:

DISCLOSURE FORMING PART OF FINANCIAL STATEMENTS:

Proposed dividend on equity shares is subject to the approval of the shareholders of the company at the annual general meeting and not recognized as liability as at the Balance Sheet date.
(refer note 4)

Notes:

1. Current investment are held for the purpose of trading. Hence, it is a financial asset classified as FVTPL. Any gain in its fair value will be recognised through profit or loss. Hence, ₹ 20,000 (₹ 50,000 – ₹ 30,000) increase in fair value of financial asset will be recognised in profit and loss. However, it will attract deferred tax liability on increased value (Refer W.N).

2. Assets for which the future economic benefit is the receipt of goods or services, rather than the right to receive cash or another financial asset, are not financial assets.

3. Liabilities for which there is no contractual obligation to deliver cash or other financial asset to another entity, are not financial liabilities.

4. As per Ind AS 10, 'Events after the Reporting Period', If dividends are declared after the reporting period but before the financial statements are approved for issue, the dividends are not recognized as a liability at the end of the reporting period because no obligation exists at that time. Such dividends are disclosed in the notes in accordance with Ind AS 1, Presentation of Financial Statements.

5. Other current financial liabilities:

	(₹)
Balance of other current liabilities as per financial statements	45,000
Less: Dividend declared for FY 20X1 – 20X2 (Note – 4)	(15,000)
Reclassification of government statuary dues payable to 'other current liabilities'	(15,000)
Closing balance	15,000

Working Note:

Calculation of deferred tax on temporary differences as per Ind AS 12 for financial year 20X1 – 20X2

Item	Carrying amount (₹)	Tax base (₹)	Difference (₹)	DTA / DTL @ 30% (₹)
Property, Plant and Equipment	1,00,000	80,000	20,000	6,000-DTL
Pre-incorporation expenses	Nil	24,000	24,000	7,200-DTA
Current Investment	50,000	30,000	20,000	6,000-DTL
Net DTL				4,800-DTL

(b) The income of ₹ 60,000 should be recognised over the three year period to compensate for the related costs.

Calculation of Grant Income and Deferred Income:

Year	Labour Cost	Grant Income		Deferred Income	
	₹	₹		₹	
1	1,30,000	21,667	60,000 x (130/360)	18,333	(40,000 – 21,667)
2	1,10,000	18,333	60,000 x (110/360)	10,000	(50,000 – 21,667 – 18,333)
3	1,20,000	20,000	60,000 x (120/360)	-	(60,000 – 21,667 – 18,333 – 20,000)
	3,60,000	60,000			

Therefore, Grant income to be recognised in Profit & Loss for years 1, 2 and 3 are ₹ 21,667, ₹ 18,333 and ₹ 20,000 respectively.

Amount of grant that has not yet been credited to profit & loss i.e; deferred income is to be reflected in the balance sheet. Hence, deferred income balance as at year end 1, 2 and 3 are ₹ 18,333,
₹ 10,000 and Nil respectively.

(b) As per Ind AS 10, the treatment of stated issues would be as under:

(i) **Adjusting event:** It is an adjusting event as it is the settlement after the reporting period of a court case that confirms that the entity had a present obligation at the end of the reporting period. Even though winning of award is favorable to the company, it should be accounted in its books as receivable since it is an adjusting event.

(ii) **Adjusting event:** The sale of inventories after the reporting period may give evidence about their net realizable value at the end of the reporting period, hence it is an adjusting event as per Ind AS 10. Zoom Limited should value its inventory at ₹ 40,00,000.

(iii) **Adjusting event:** As per Ind AS 10, the receipt of information after the reporting period indicating that an asset was impaired at the end of the reporting period, or that the amount of a previously recognised impairment loss for that asset needs to be adjusted.

The bankruptcy of a customer that occurs after the reporting period usually confirms that the customer was credit-impaired at the end of the reporting period.

(iv) **Non–adjusting event:** Announcing or commencing the implementation of a major restructuring after reporting period is a non-adjusting event as per Ind AS 10. Though this is a non-adjusting event occurred after the reporting period, yet it would result in disclosure of the event in the financial statements,if restructuring is material.

This would not require provision since as per Ind AS 37, decision to restructure was not taken before or on the reporting date. Hence, it does not give rise to a constructive obligation at the end of the reporting period to create a provision.

6. (a) 1 April 20X1

A financial guarantee contract is initially recognised at fair value. The fair value of the guarantee will be the present value of the difference between the net contractual cash flows required under the loan, and the net contractual cash flows that would have been required without the guarantee.

Particulars	**Year 1 (₹)**	**Year 2 (₹)**	**Year 3 (₹)**	**Total (₹)**
Cash flows based on interest rate of 11% (A)	1,10,000	1,10,000	1,10,000	3,30,000
Cash flows based on interest rate of 8% (B)	80,000	80,000	80,000	2,40,000
Interest rate differential (A-B)	30,000	30,000	30,000	90,000
Discount factor @ 11%	0.901	0.812	0.731	
Interest rate differential discounted at 11%	27,030	24,360	21,930	73,320
Fair value of financial guaranteed contract (at inception)				**73,320**

31 March 20X2

Subsequently at the end of the reporting period, financial guarantee is measured at the higher of:

- the amount of loss allowance; and
- the amount initially recognised less cumulative amortization, where appropriate.

At 31 March 20X2, there is 1% probability that Moon Limited may default on the loan in the next 12 months. If Moon Limited defaults on the loan, Sun Limited does not expect to recover any amount from Moon Limited. The 12-month expected credit losses are therefore ₹10,000 (₹10,00,000 x 1%).

The initial amount recognised less amortisation is ₹51,385 (₹73,320 + ₹8,065 (interest accrued based on EIR)) – ₹30,000 (benefit of the guarantee in year 1) Refer table below. The unwound amount is recognised as income in the books of Sun Limited, being the benefit derived by Moon Limited not defaulting on the loan during the period.

Year	Opening balance ₹	EIR @ 11%	Benefits provided ₹	Closing balance ₹
1	73,320	8,065	(30,000)	51,385
2	51,385	5,652	(30,000)	27,037
3	27,037	2,963*	(30,000)	-

* Difference is due to approximation

The carrying amount of the financial guarantee liability after amortisation is therefore ₹ 51,385, which is higher than the 12-month expected credit losses of ₹ 10,000. The liability is therefore adjusted to ₹ 51,385 (the higher of the two amounts) as follows:

Particulars	Debit (₹)	Credit (₹)
Financial guarantee (liability) Dr.	21,935	
To Profit or loss		21,935
(Being financial guarantee subsequently adjusted)		

31 March 20X3

At 31 March 20X3, there is 3% probability that Moon Limited will default on the loan in the next 12 months. If Moon Limited defaults on the loan, Sun Limited does not expect to recover any amount from Moon Limited. The 12-month expected credit losses are therefore ₹ 30.000 (₹ 10,00,000 x 3%).

The initial amount recognised less accumulated amortisation is ₹ 27,037, which is lower than the 12-month expected credit losses (₹ 30,000). The liability is therefore adjusted to ₹ 30,000 (the higher of the two amounts) as follows:

Particulars	Debit (₹)	Credit (₹)
Financial guarantee (liability) Dr.	21,385*	
To Profit or loss (Note)		21,385
(Being financial guarantee subsequently adjusted)		

* The carrying amount at the end of 31 March 20X2 = ₹ 51,385 less 12-month expected credit losses of ₹ 30,000.

(b) (1) **Goodwill / capital reserve on the date of acquisition**

The cost of the investment is higher than the net fair value of the investee's identifiable assets and liabilities. Hence there is goodwill. Amount of goodwill is calculated as follows

	₹
Cost of acquisition of investment	1,25,000
Blue Ltd.'s share in fair value of net assets of Green Ltd. on the date of acquisition (4,00,000 *25%)	(1,00,000)

Goodwill	**25,000**

Above goodwill will be recorded as part of carrying amount of the investment.

(2) **Share in profit and other comprehensive income of Gren Ltd.**

	₹
Share in profit of Green Ltd. (40,000 x 25%)	10,000
Adjustment for depreciation based on fair value (1,00,000 ÷ 20) x 25%	(1,250)
Share in profit after adjustment	**8,750**
Share in other comprehensive income (10,000 x 25%)	**2,500**

(3) **Closing balance of investment at the end of the year**

	₹
Cost of acquisition of investment (including goodwill of ₹ 25,000)	1,25,000
Share in profit after adjustments	8,750
Share in other comprehensive income	2,500
Closing balance of investment	**1,36,250**
