4. (a) (i) Section 194N, provides that every person, including, *inter alia*, a banking company, who is responsible for paying, in cash, any sum or aggregate of sums exceeding ₹ 1 crore during the previous year to any person from one or more accounts maintained by such recipient-person with it, shall deduct tax at source @2% of sum exceeding ₹ 1 crore.

In the present case, M/s K & Co. LLP has withdrawn ₹ 1.26 crores in cash in aggregate during the previous year 2021-22. Since aggregate amount of cash withdrawals exceed ₹ 1 crore, bank is required to deduct tax at source on the amount exceeding ₹ 1 crore i.e., ₹ 26 lakhs though he withdraws ₹ 68 lakhs for buying agricultural produce from farmers, agriculturists, being raw material required for manufacturing of finished products by it.

- (ii) Any person responsible for paying interest (other than interest referred to in section 194LB or section 194LC or section 194LD) or any other sum chargeable to tax (other than salaries) to a non-corporate non-resident or to a foreign company is liable to deduct tax at source at the rates in force.

Since interest of ₹ 98,000 on Capital Gains Bond issued by Power Finance Corporation Ltd. is taxable in the hands of Mr. Amar, being a non-resident, the provisions for tax deduction at source under section 195 are attracted in this case.

- (b) When an assessee is in default or is deemed to be in default in making a payment of tax, the TRO may draw up under his signature a statement in the prescribed form specifying the amount of arrears due from the assessee and shall proceed to recover from such assessee the amount specified in the certificate by *inter alia* attachment and sale of the assessee's movable or immovable property.

The assessee's movable or immovable property shall include any property which has been transferred, directly or indirectly by the assessee to his spouse or minor child or son's wife or son's minor child, otherwise than for adequate consideration, and which is held by, or stands in the name of any of the persons aforesaid.

In the present case, Mr. Balveer had transferred his land 5 years ago to his son who was 40 years old at that time. He also gifted a diamond necklace to his son's wife on 5.10.2019. He also has bank fixed deposits, receivables from S & Co. Ltd. and residential apartment in UK.

The Tax Recovery Officer can proceed to recover the tax by attaching -

- (i) bank fixed deposits,
- (ii) receivables from S & Co. Ltd.;
- (iii) residential apartment in UK.

He can also proceed to recover the tax by attaching the diamond necklace gifted to his son's wife.

However, he cannot proceed to recover the tax by attaching the land which he transferred to his son, since at the time of transfer, his son was major.

- (c) (i) As per section 9(1)(i), all income accruing or arising, whether directly or indirectly, through or from any business connection in India is deemed to accrue or arise in India.

In this case, there was a professional connection between the firm of solicitors in Bhopal and the barrister in Australia.

The expression "business" includes not only trade and manufacture; it includes, within its scope, "profession" as well.

Therefore, the existence of professional connection amounts to existence of "business connection" under section 9(1)(i)⁵.

Hence, the amount of 6,500 Australian dollars paid to the barrister in Australia as per the terms of the professional engagement constitutes income which is deemed to accrue or arise in India under section 9(1)(i). Hence, it is taxable in India.

- (ii) Fees for technical services is taxable under section 9(1)(vii). In this case, the separate payments made towards drawings and designs (described as "engineering fee") are in the nature of fee for technical services and, therefore, it is taxable in India by virtue of section 9(1)(vii), since the services are utilized for execution of electrical work in India⁶.

As per *Explanation* below section 9(2), where income is deemed to accrue or arise in India under section 9(1)(vii), such income shall be included in the total income of the non-resident German company, regardless of whether it has a residence or place of business or business connection in India.

- (iii) ₹ 12 lakhs, being the value of debentures issued by an Indian company in consideration of providing technical know-how for use in its business in India, is in the nature of fee for technical services, deemed to accrue or arise in India to TPL Engineering, a non-resident foreign company, under section 9(1)(vii). Hence, it is taxable in India.

⁵ It was so held by the Supreme Court in *Barendra Prasad Roy v. ITO* (1981) 129 ITR 295.

⁶ *Aeg Aktiengesellschaft v. CIT* (2004) 267 ITR 209 (Kar.)

Interest on debentures: Further, as per section 9(1)(v), income by way of interest payable by a person who is a resident of India is deemed to accrue or arise in India⁷. Therefore, interest income from debentures of an Indian company is deemed to accrue or arise in India in the hands of TPL Engineering by virtue of section 9(1)(v). Hence, it is taxable in India.

5. (a) (i) Section 144C requires the eligible assessee, XYZ Ltd., to file his objections within 30 days of the receipt of draft assessment order from the Assessing Officer with the DRP and the Assessing Officer

If he fails to do so, the Assessing Officer will proceed to complete the assessment on the basis of the draft order.

The CBDT has clarified that the assessee has a choice whether to file an objection before the DRP against the draft assessment order or not to exercise this option and file an appeal later before CIT (Appeals) against the final assessment order passed by the Assessing Officer.

Therefore, XYZ Ltd. can choose to file an appeal before Commissioner (Appeals) against the final assessment order instead of filing objection before the DRP against the draft assessment order passed by the Assessing Officer.

In case XYZ Ltd. files objection before the DRP, then, he has the right to appeal to Appellate Tribunal, if he is aggrieved by the final order passed by the Assessing Officer in pursuance of the directions of the DRP.

- (ii) As per section 132B, the amount of existing liability under the Income-tax Act and the amount of liability determined on completion of assessment under section 148 may be recovered out of assets seized under section 132. The words “existing liability” postulates a liability that is crystallized by adjudication.

Likewise, “a liability is determined” only on completion of the assessment. Until the assessment is complete, it cannot be postulated that a liability has been crystallized.

It is only when the liability is determined on the completion of assessment that it would stand crystallized and in pursuance of which a demand can be raised and recovery can be initiated. Accordingly, the assessee may make an application to the Assessing Officer within 30 days from the end of the month in which the asset was seized, for release of the assets seized.

However, in the present case, the assessee moved an application before the Assessing Officer for adjustment of tax liability on income surrendered during search by sale of seized gold bars.

In this case, assessment is not complete and the liability has not been crystallised.

Therefore, the action of the Assessing Officer in turning down the application of the assessee is in order, since the assets seized cannot be adjusted against tax liability on income surrendered during search⁸.

- (c) BEPS Action Plan 13 contains a three-tier standardized approach to transfer pricing documentation which consists of:

- (a) **Master file:** Master file requires MNEs to provide tax administrations with high-level information regarding their global business operations and transfer pricing policies. The master file is to be delivered by MNEs directly to local tax administrations.

⁷ since the debt incurred is not utilized for a business outside India or for earning income from a source outside India

⁸ It was so held in *Hemant Kumar Sindhi & Another v. CIT* (2014) 364 ITR 555 (All)

- (b) **Local file:** Local file requires maintaining of transactional information specific to each country in detail covering related-party transactions and the amounts involved in those transactions. In addition, relevant financial information regarding specific transactions, a comparability analysis and analysis of the selection and application of the most appropriate transfer pricing method should also be captured. The local file is to be delivered by MNEs directly to local tax administrations.
- (c) **Country-by-country (CBC) report:** CBC report requires MNEs to provide an annual report of economic indicators viz. the amount of revenue, profit before income tax, income tax paid and accrued in relation to the tax jurisdiction in which they do business. CBC reports are required to be filed in the jurisdiction of tax residence of the ultimate parent entity, being subsequently shared between other jurisdictions through automatic exchange of information mechanism.

A specific reporting regime in respect of CbC reporting and also the master file has been incorporated in the Income-tax Act, 1961. The essential elements have been incorporated in the Income-tax Act, 1961 while remaining aspects would be dealt with in detail in the Income-tax Rules, 1962.

- (i) Section 286 of the Income-tax Act, 1961 contains the provisions relating to CbC reporting requirement and related matters.
- (ii) Section 92D of the Income-tax Act, 1961 contains the provisions relating to maintenance and furnishing of Master file.

6. (a) In this case, the business of the firm, M/s. Trimurty & Co., has been discontinued when scrutiny assessment of A.Y.2019-20 was in progress and notice of discontinuance was given to the Assessing Officer on 10.7.2021. The firm has, however, filed returns on time upto A.Y.2020-21.

As per section 189, the Assessing Officer is required to make an assessment of the total income of the firm as if no such discontinuance has taken place. Accordingly, all the provisions of the Income-tax Act, 1961, including provisions relating to levy of penalty or any other sum chargeable under any provision of the Act would apply to such assessment.

If the Assessing Officer, is satisfied that the firm was guilty of any act for which penalty can be imposed under the Act, he may direct imposition of penalty.

Every person who was a partner at the time of discontinuance would be jointly and severally liable for the amount of tax, penalty or other sum payable. The provisions of the Income-tax Act, 1961 would apply to any such assessment or imposition of penalty or other sum.

In this case, since the discontinuance has taken place after scrutiny assessment proceedings for A.Y.2019-20 has commenced, the proceedings may be continued against the persons who were partners of the firm (at the time of discontinuance) from the stage at which the proceedings stood at the time of discontinuance.

- (b) **Computation of tax liability of Sun Ltd. for A.Y. 2022-23 under regular provisions of the Act**

Particulars	₹
Total Income before allowing additional depreciation	22,00,000
Less: Additional Depreciation u/s section 32(1)(ia) [₹ 12 lakh x 20%]	2,40,000
Total Income	19,60,000
Applicable Tax Rate (since turnover of P.Y. 2019-20 < ₹ 400 crores)	25%
Tax payable	4,90,000
Add: Health & Education cess@4%	19,600
Tax Liability	5,09,600

Computation of tax liability of Sun Ltd. for A.Y. 2022-23 under section 115BAA

Particulars	₹
Total Income before allowing additional depreciation	22,00,000
Less: Additional Depreciation u/s section 32(1)(ia) [not allowable as deduction while computing income u/s 115BAA]	-
Total Income	22,00,000
Applicable Tax Rate	22%
Tax payable	4,84,000
Add: Surcharge@10%	48,400
	5,32,400
Add: Health & Education cess@4%	21,296
Tax Liability	<u>5,53,696</u>
Tax Liability (rounded off)	5,53,700

Since tax payable as per the regular provisions of the Act is lower than the tax payable under the provisions of section 115BAA, it would be beneficial for Sun Ltd. not to opt for section 115BAA.

- (c) A transaction where one of the parties thereto is a person located in a NJA would be deemed to be an international transaction and all parties to the transaction would be deemed as associated enterprises. Accordingly, all the provisions of transfer pricing would be attracted in case of such a transaction.

Hence, the transactions between ETI Ltd, an Indian company and LP Ltd., located in NJA, would be deemed to be international transactions between associated enterprises.

The transactions of ETI Ltd. with TP Inc. of Country X and MN Inc. of Country Y for sale of identical goods are comparable uncontrolled international transactions, since they are neither associated enterprises of ETI Ltd. nor are they situated in NJA. Hence, Comparable Uncontrolled Price (CUP) method can be used to determine ALP.

Where more than one price is determined by the most appropriate method, CUP method in this case, then, the arithmetic mean has to be taken in cases where the number of entries in the dataset is less than 6 (in this case it is only 2). Moreover, the benefit of permissible variation between the ALP and the transfer price based on the rate notified by the Central Government (i.e., maximum of 3% of transaction price) would **not** be available in respect of such transaction

Computation of ALP using CUP method

Particulars	TP Inc.	MN Inc.
